ROHIT BHARDWAJ

Cybersecurity | Phishing & Fraud Detection | Secure Application Development | Risk & Compliance

+91 9569884814 | rbhardwaj.office@gmail.com | linkedin.com/in/bhardwaj-rohit/ | github.com/TheBhardwajRohit

EDUCATION

Rashtriya Raksha University (Institution of National Importance, MHA, Govt. of India) Aug 2023 - Jul 2027
Bachelor of Technology in Computer Science & Engineering (Specialization in Cyber Security) Gandhinagar, Gujarat

- CGPA: 7.27 / 10 | Class XII (CBSE): 75.4% | Class X (ICSE): 80.6%

WORK EXPERIENCE

Department of Computer Science & Engineering, NIT Raipur Raipur, Chhattisgarh
Research Intern under Dr. Preeti Chandrakar Jun 2026 - Jul 2026

- Built the alert messaging and optimal route prediction modules for VItalGrid, a decentralised emergency-vehicle routing system (Flask, React).
- Developed the React control dashboard for roadside units, with rendering verified through Playwright tests.

National Critical Information Infrastructure Protection Centre - AICTE Delhi, India
Green Team Member Nov 2023 - Dec 2023

- Took part in national-level cyber exercises simulating real-world attacks on critical sectors, studying attacker techniques (TTPs).
- Worked with critical infrastructure operators (ONGC, Adani, DERC) on vulnerability assessments and cyber hygiene implementation.
- Recognised by the Government of India for contributions to the National Cyber Hygiene Initiative under AICTE.

PROJECTS

LinkLens | Phishing and Scam-Link Analyser | *Python, FastAPI, React, PostgreSQL, Docker, LightGBM* Sep 2026

- Built a tool that scores a suspicious link from 0 to 100, identifies the scam type (banking fraud, UPI/KYC, phishing) and explains each reason in plain words, using blacklists, WHOIS/DNS/certificate recon and a sandboxed browser visit.
- Ran every page visit in an isolated Chromium sandbox with SSRF and DNS-rebinding checks on each redirect hop; grouped 55,000 pages into 531 scam families using fuzzy and perceptual hashing.
- Trained a LightGBM model (ROC AUC 0.974, 97.5% precision on 15,558 unseen pages); caught and removed dataset shortcuts that made a harmless tracking tag flip 63 of 63 honest sites to "scam".

LLM Security Defense Engine | *Python, NLP, LLM Security* Jan 2026

- Built an input-screening layer that blocks prompt injection and jailbreaks (DAN-style, indirect) before they reach an LLM app.
- Wrote classification logic that separates complex legitimate queries from malicious ones, including Unicode and encoding tricks.

Institution Scale Workflow System | *Python, RBAC, Cryptography, REST API Security* **|** *Smart India Hackathon* Sep 2025

- Built a full-stack platform for institutional records with role-based access control, AES-encrypted storage and hash-based integrity checks, storing only the fields each workflow needed.
- Built batch-review APIs so administrators could review records in bulk instead of one at a time.

HONORS & ACHIEVEMENTS

- **PwC AC India Fiercest Competitor 5.0, Cyber & Risk Hackathon | Top 5, Team Lead** | Among the top 30 students nationally invited to PwC Bangalore (fully sponsored); led my team to a top-5 finish, building and presenting a secure application prototype.
- **Deloitte Hacksplosion 2026 | Top 60 Teams Nationally** | Cleared two national rounds of Deloitte's GenW.AI hackathon.
- **Team DIGGAJ | 25th in India, 306th Globally on CTFtime (2026)** | 10+ international CTFs in web, network and binary.
- **ApoorvCTF 2026 | Top 5** | Secured a top-5 position at IIIT Kottayam's cybersecurity CTF.
- **Echelon Hackathon 2026, SVNIT Surat | Top 8 Finalist** | Qualified through an online CTF elimination round.

LEADERSHIP EXPERIENCE

The Cyber Alliance (TCA) Club | *Research Lead* Apr 2025 - Present

- Led the TCA Distinguished Speaker Series, securing policymakers and industry speakers for 4 hybrid seminars (500+ students).

Google for Developers | *Student Campus Ambassador* Jan 2025 - Present

- Grew a campus developer community, running Google Cloud and AI/ML workshops for 250+ students.

CERTIFICATIONS

- Certified Network Security Practitioner (CNSP) — The SecOps Group
- Certified Bug Bounty Professional — The SecOps Group
- CCNA Course Series (ITN, SRWE, ENSA) — Cisco Networking Academy
- Python Essentials 1 & 2 — Cisco Networking Academy

SKILLS

- Cybersecurity: OWASP Top 10 (Web & LLM), Burp Suite, Nmap, Wireshark, Metasploit, Phishing Analysis, OSINT
- Secure Development: Secure SDLC, REST API Security, RBAC, Input Validation, SSRF Prevention, Sandboxing
- GRC & Compliance: DPDP Act 2023, ISO/IEC 27001, RBI Cyber Security Framework, Privacy by Design, Gap Assessment
- Cloud & Infrastructure: Docker, Docker Compose, GitHub Actions (CI/CD), Linux (Kali, Ubuntu), Nginx, Git
- Programming: Python, SQL, Bash, Java | FastAPI, React, PostgreSQL
